"THEODORE ROOSEVELT."

Washington, Feb. 8 .- "The policy of the administration is to combine the maximum of efficiency in achieving the real object which the people of the Pacific slope have at heart, with the minimum of friction and trobule, while the misguided men who advocate such action as this against which I protest are following a policy which combines the very minimum of efficiency with the maximum of insult, and which, hile totally falling to achieve any real results for good, yet might accomplish an infinity of harm."

"I trust there will be no misunder-standing of the federal government's attitude. We are jealously endeavoring to guard the interests of California and of the entire west in accordance with the desires of our western people. By friendly agreement with Japan we are now carrying out a policy which, while meeting the interests and desires of the Pacific slope, is yet compatible not merely with mutual self-respect but with mutual self-respect but with mutual self-respect but with mutual esteem and admiration between the Americans and Japanese.

Was called up today by Senator Alarc Anthony of San Ffancisco.

The senate decided by a vote of 25 to 5 to defer until next Thursday its action on the report of the committee on executive communications, which advised against legislation aimed at the Japanese. Senator J. B. Sanford introduced a joint resolution asking congress to exclude Japanese in the provisions of the Gearry exclusion act. Mutuality of Obligation and Behavior.

"The Japanese government is loy-ally and in good faith doing its part to carry out this policy, precisely as the American government is doing. This policy aims at mutuality of obligation and behavior.
